 Spanish

RESUME SUMMARY

I love finding simple solutions to hard problems and creating things that I can be proud of. I also love to help people, whether that be fulfilling the needs of a client, working on a team, or teaching/ training other developers. In my previous employment I have gained valuable experience programming, filling various roles on teams, and working with clients.

EXPERIENCE

Lead Web Developer
Clever Coding | Jan. 2022 - Nov 2022
- Lead a team of 5 web developers (including 2 that I trained)
- Assigned/followed up on tasks and performed code reviews
- Worked with clients to identify requirements and scope for projects
- Provided direction and unblocked developers in 9 projects that I was not actively contributing to
- Managed CI/CD pipelines to deploy projects to staging and development environments
- Managed various AWS resources including EC2, Route 53, S3 Buckets, IAM, MediaLive, and Media Package

Full Stack Web Developer
Clever Coding | Mar. 2021 - Jan. 2022
- Main contributor on 5 full stack projects using VueJS on the frontend and Express API's using SequelizeJS to integrate with MySQL Databases
- Main contributor on 3 smaller frontend only projects
- Worked with clients for feedback on work completed

Software Engineer
Frozen Dessert Supplies | Mar. 2019 - Mar. 2021
- Brought development in-house by adapting and combining existing 3rd party code bases
- Created and managed a Typescript Node Server for inventory tracking, order fulfillment, backorder emailing, etc.
- Created a React app providing address validation and reporting
- Assisted in the hiring and training of new developers

Co-Founder & Web Dev., Bicode Tech | 2018 - 2019
- Created 3 websites using Wordpress. 2 for clients and our own
